

PI ATTORNEY REFERRAL SYSTEM

Turn nearby personal injury firms into a steady referral source.

Most chiropractors wait for attorney referrals. This package gives you the list, the emails, the mail, and the videos written so the lawyer sees a partner who helps raise settlement value, not another clinic asking for patients.

The partnership line attorneys remember

Unlike other personal injury chiropractors, when your Practice works with attorneys to help increase personal injury settlements by 23% or more, you have a true partnership, everybody wins.

The chiropractic clinics they currently send referrals to cannot say that.

WHAT YOU RECEIVE

01 24 unique attorney-referral emails

A ready-to-send email campaign designed to introduce your Personal Injury chiropractic practice to local PI attorneys. Each email highlights your meticulous patient documentation, responsive communication, and proprietary case-support tools and resources designed to strengthen case presentation and help attorneys pursue higher settlements when supported by the facts and circumstances of each case.

02 Personal injury attorney list — 25 miles from your office

A working outreach file, not a scraped dump. For each Personal Injury Law Firm, you get:

Law firm name · Primary PI attorney · Phone · Email (personal email when available) · Office address · Website · How active they are online generating PI clients, your future referrals.

VERIFY AVAILABILITY ON POSTCARDS AND BRANDED VIDEO SHORTS/LIMITED SUPPLY

03 6-month postcard artwork

Print-ready creative for a 6" × 9" direct-mail campaign. Six months of sequential pieces so the same firms see your name more than once, without you designing a thing.

04 25 branded video shorts

Videos promoting your practice to personal injury law firms, built to drop into email, LinkedIn, Facebook, X and your website. Branded to your office, not a generic clinic template.
